IDENTIFIERS	*Urban Transfer Opportunities Program

ABSTRACT

This report presents information on activities conducted at Highland Park Community College (HPCC) under a Ford Foundation Urban Community College Transfer Opportunities Program grant. Introductory material outlines some impacts of the grant program in terms of increased recruitment of HPCC students and the signing of articulation agreements. It also presents the three major objectives of the program: the identification of potential transfer students and development of a student data base system; the upgrading of counseling and instructional services in an effort to improve student achievement levels and to facilitate transfer; and the recruitment of potential transfer students from local high schools. Next, the activities undertaken to achieve these objectives are presented, including: (1) initiating a student assessment program; (2) designing and implementing activities with four-year "receiver" colleges and "feeder" high schools; (3) expanding the existing honors program; (4) establishing a program that uses work-study and cooperative education experiences to strengthen academic skills; (5) upgrading counseling and instructional services; and (6) enriching recruitment efforts directed to transfer students. Appendices include letters, advisement sheets, a performance report, and a migration transfer study report. (HB)

AN EQUAL OPPORTUNITY EMPLOYER

FORD FOUNDATION URBAN TRANSFER PROJECT

The selection of Highland Park Community College as a part of the Ford Foundation Urban Transfer Project has had a positive impact on the College.

The Ford Foundation Grant has served to add prestige and impetus to the transfer function both internally and throughout the higher education community in Michigan.

Four-year colleges and universities have begun to recruit our students with a new interest. Articulation agreements are now being signed and joint committees are now operating in the interest of insuring a smooth transition both academically and socially for our students.

In the initial proposal to the Ford Foundation, Highland Park Community College proposed three major objectives in its program design. Listed they were:

1) Identification of potential transfer students and development of a student data base system which affords better information about individuals and groups for the purpose of improving support services.

2) Upgrading counseling and instructional services to the identified students in an effort to improve achievement levels, to clarify transfer goals, and to facilitate successful transition to a four-year institution.

3) Recruitment of potential transfer students from local high schools through vigorous promotion of the transfer program to that population of capable students who heretofore have not continued their education.

To achieve these objectives the following activities were undertaken:

1) Initiate a student assessment program which includes ASSET and PET. The ASSET program was initiated in the fall of 1983 and given again in the spring of 1984. The assessment was given to all first time students and the data gathered was used for course placement and developmental/remedial services. The collected data also included counseling information such as college/university preference, work experience desired, and needed supportive services. The data was compiled and given to the counseling and instructional staff in the form of student profiles.

2) Design and implement activities with four-year "receiver" colleges and "feeder" high schools.

- Highland Park students visited seven (7) four-year institutions during the 1983-84 school year. Trips were planned in conjunction with the admissions and counseling staff and a total of approximately 300 students participated in the visits to Michigan State, Oakland University, Wayne State University, University of Detroit, Eastern Michigan University, University of Michigan, and the Detroit College of Business.
- The College also experienced an increase in the number of four-year recruiters visiting the campus. There were 48 visits to the campus during the 1983-84 school year.
- The College arranged for a joint meeting of Admissions and Departmental Chairpersons at Highland Park Community College to discuss the Ford Project, articulation, two-plus-two programs, as well as, issues related to transition and retention of our students to their respective campuses. There were 32 people representing nine (9) colleges in attendance at the meeting. Follow-up meetings are scheduled for the Fall.
- Special interest forums were held on the campus of Highland Park Community College with representatives from area four-year schools to discuss course or college requirements such as; Pharmacy, Education, Nursing, etc..

- Highland Park Community College participated in 35 High School Visitations, both day and night, to acquaint high school students with the College.
- Twenty-one (21) High School Counselors were also invited to our campus to meet with their respective former students and to get new information on the college and transfer opportunities.
- The College also signed several new Articulation Agreements, and increased the flow of information regarding transfer opportunities to students, counselors, and instructional staff.

3) Expand existing honors program.

- The College conducted several programs and activities to honor students with outstanding academic achievements. There were over three hundred students honored at the Spring Honors Convocation. Those honored were students who earned a 3.0 grade point average as full-time students. Additionally, 49 new students were inducted into Phi Theta Kappa, the National honors fraternity for community college students. Phi Theta Kappa members must have a 3.5 grade point average or better as full-time students having completed 20 credits.
- The students participated in several career and professional interest day seminars both on campus and at other locations in the city.

. The mentor exchange program was not implemented this year. However, initiation of this feature will begin, Fall 1984.

4) Establish a program that uses work-study and cooperative education experiences to strengthen academic skills.

. Approximately 75 students were placed in cooperative education/work-study assignments that complemented their academic skills and career interest.

5) Upgrade counseling and instructional services.

. Personalized student informational profiles were developed and utilized by the counseling staff. Profiles included testing data along with a complete transcript of all courses and grades at Highland Park Community College.

. Students were given individual program advisement information corresponding to the colleges and the programs in which they intend to transfer. Conferences were scheduled for students to meet with representatives from four-year schools.

. The College continues to support and participate in project ESCALATE which is a computerized system of course equivalencies between two and four-year schools. The data is available in both printed and visual forms. Schools are also able to enter and update data from campus terminals.

. The College also continues to be a member of MACRAO which is a signed agreement between four-year state institutions which permits maximum transfer of credits for community college graduates.

6) Enrich recruitment efforts directed to transfer students.

. The College engaged in 35 visitations to feeder high schools in the area. The purpose of the visits were two-fold; to communicate data to secondary schools regarding parallel admissions programs and recruit students to the college. Instructional staff engaged in activities with the college recruiter. Activities are also planned for the fall, focusing on specific departments such as Business, and Computer Science.

. The only major change in the program design has been the elimination of the PEPS (Productivity Environmental Preference Survey). This survey is designed to analyze how each student prefers to function, learn, concentrate, and perform in his/her occupational or educational environment. The results were to be discussed with each student and shared with teachers in order to accommodate major/strong preferences. After careful consideration by the committee and others, it was decided not to use the instrument because we had no way to enforce or accommodate the finding in a classroom setting.

All of the other activities are underway and are at various stages of implementations. They have all been endorsed by the President's Executive Council, as well as, the Curriculum Council and are now a part of the on-going operations of the College.

Attached are samples of reports, and letters to support some of the items in this summary.

Migration Report

Office of the Provost

Wayne State University
Detroit, Michigan 48202

November 1, 1983

Dr. Chrystine R. Shack
President
Highland Park Community College
Glendale & Third Avenues
Highland Park, MI 48203

Dear President Shack:

On July 15, 1983, Wayne State University adopted a new Statute governing the transfer of students from community colleges and other institutions of higher education. A copy of the Transfer Student Statute has been enclosed for your review. This policy includes several new provisions which are designed to remove barriers to transfer between two-year colleges and the University. The policy also encourages University faculty to engage in discipline-oriented dialogue with their community college counterparts. The policy is now in effect for students seeking admission to Wayne State for the Winter 1984 Term.

I believe that the new Transfer Student Statute demonstrates our commitment to providing expanded educational opportunities for a wide spectrum of Michigan's residents. President Adamany and I would welcome your comments on transfer student policy, and we invite you to share your views on the enclosed document with either of us.

Sincerely,

Harold P. Hanson

Harold P. Hanson
Provost

Enclosure

TRANSFER STUDENT STATUTE

The Academic Affairs Committee recommended the adoption of a statute which provides a comprehensive statement of the University's policy on the transfer of course credits from two-year and four-year colleges and universities. The statute was reviewed and approved by the Curriculum and Instruction Committee of the University Council and by the Council itself.

The President stated at the July 13 meeting of the Academic Affairs Committee that although the policy is deficient of certain programs that should be included in an urban university, he is appreciative of the extensive review conducted by the Curriculum and Instruction Committee. He supports the recommendation and defers to the faculty because of its professional expertise in the area of educational policy.

The Curriculum and Instruction Committee has agreed to consider the development of "two-plus-two" programs during the Fall, whereby students with community college associate degrees would have an opportunity to earn a specially designated degree at Wayne State University.

April 17, 1984

Mr. Jerry Raymond, Director
Office of Admissions/Records
Highland Park Community College
Glendale at Third
Highland Park, MI 48203

Dear Jerry:

Dr. Roman and I were very pleased to represent Madonna College at the articulation luncheon. Your renovated Student Lounge is beautiful and memories of the excellent food still linger and tickle the palate.

You could not have chosen a better way to communicate the excitement, the spirit, and the vigor with which your institution is pursuing the objectives of the Ford Foundation Grant. You and your colleagues left us with very favorable impressions.

One request: though I was feverishly taking notes, I find I need answers to questions posed by my colleagues here on campus. Any written material you or other appropriate administrators could send me regarding the objectives of the grant and a profile of your current student body (i.e., number of students by major, number desiring 4-year degree, etc.) would be helpful. This was the kind of information I requested after the luncheon.

Again, thank you for your hospitality. Congratulations on being selected as one of the fortunate "Twenty-four." We look forward to strengthening the "ties that bind."

Sincerely,

Louis E. Brohl, III
Director of Admissions

LEB/dd
encl.

P.S. Jerry, I know you would give me the shirt off your back; however, I checked our files and was happy to find a copy of your 1981-83 catalog. I want you to have your personal copy. Now I can sleep at night.

Admissions Office 4001 W. McNichols Road, Detroit, Michigan 48221 Telephone: (313) 927-1245

April 9, 1984

Dean Carolyn Williams
Highland Park Community College
Glendale at Third
Highland Park, MI 48203

Dear Dean Williams,

We at the University of Detroit look forward to working with you on the formulation of articulation arrangements. My colleagues, who were present at your luncheon this past Friday, reported they made a number of contacts at your institution that they believe will be useful in pursuing our mutual articulation goals.

Highland Park Community College has been one of our major sending community colleges for the past several years. In the fall of 1983 your institution was our fourth largest sending community college.

The following information was extracted from the 1982 Michigan Association of Collegiate Registrars and Admissions Officers (MACRAO) Transfer Migration Report. That year, according to the report, Highland Park Community College sent 81 students to four year public (58%) and 58 students to four year private institutions (42%) for a total of 139 students forward transferring. The University of Detroit was the second largest receiver of Highland Park Community College students.

When confronted with this type of data the need for articulation becomes apparent.

The University of Detroit anticipates jointly building a sound articulation structure with you on the firm foundation established at your luncheon.

Very truly yours,

Bradley N. Fitch

Bradley N. Fitch, Director
Adult Student Services

DETROIT PUBLIC SCHOOLS

April 17, 1984

Dear Mr. Raymond,

Thank you again for such a delightful day at Highland Park Community College. I really got a lot of "feedback" from your students, which will be very beneficial to me when I speak with seniors about applying for H.P.C.C.

As usual the lunch was great and so was the fellowship with the H.P.C.C. Family.

Sincerely,

Betty L. Boyce

CURRICULUM GUIDE

THE UNIVERSITY OF MICHIGAN-DEARBORN
SCHOOL OF MANAGEMENT
BACHELOR OF SCIENCE IN ADMINISTRATION (BSA)

HIGHLAND PARK COMMUNITY COLLEGE
1981-83

This guide represents the freshman and sophomore requirements for transfer into the BSA program at the junior level. Requirements for the BBA degree program are on the reverse side of this sheet. While certain areas are identical (English composition, economics, accounting, natural sciences and mathematics), be sure to note the significant differences in the humanities and social science requirements. The School of Management requires completion of all required prerequisites and 55 semester hours to be eligible for admission. This program is offered only during daytime hours but does not require full time enrollment.

FIRST SEMESTER	SEM.HRS.	SECOND SEMESTER	SEM.HRS.
English composition 101	3	English composition 102	3
Mathematics 201	3	Mathematics 220	4
Natural science (1)	4	Natural science	3/4
Social science (2)	3	Social science	3
		Humanities (2)	3

THIRD SEMESTER	SEM.HRS.	FOURTH SEMESTER	SEM.HRS.
Accounting 311	4	Accounting 312	4
Economics 101	4	Economics 102	4
Symbolic language (3)	3/4	Symbolic language	3/4
Speech 201 or Math 204*	3	Political science 121	3
Humanities	3	Elective	3

(1) Two courses are required. One course must have a laboratory. Choose from: Biology (except 147,241,258), chemistry (except 100,101), physical science, physics (except 105).

(2) The BSA program requires two courses in each of the areas of humanities and social sciences, (not including economics, logic, or public speaking). Choose from:

Humanities: Art history (101,102,103), humanities (except 110), literature, foreign language (203 and above), philosophy.

Social science: Anthropology, history, geography, political science, psychology, sociology (except 240).

(3) A two-course sequence in a foreign or symbolic language is required. Choose from: French or Spanish (201,202 or 203,204); logic and mathematics beyond 220 may be elected at UM-Dearborn.

* Recommended but not required.

NOTE: THE SCHOOL OF MANAGEMENT WILL ACCEPT A MAXIMUM OF 60 SEMESTER HOURS IN TRANSFER.

It is the student's responsibility to keep in yearly contact with The University of Michigan-Dearborn admissions counselors to remain up-to-date on any deadlines or other facts. Students are advised to consult the current UM-D Announcement when planning a transfer program.

rev. 9/81

Wayne State University

May 23, 1984

Ms. Chrystine R. Shack, President
Highland Park Community College
Glendale & Third Avenues
Highland Park, MI 48203

Dear Ms. Shack:

I am pleased to transmit the enclosed set of reports detailing the performance of students from Highland Park Community College who enrolled at Wayne State University in Fall Term 1983-84. These reports compare the performance of students from various institutional sources by academic rank, and also include information regarding the number and percentage of transfer students that did not complete course-work during Fall Term. An appendix shows the number of transfer students from each SEMLCC institution that were enrolled at Wayne State University during Fall 1983.

In transmitting these reports, I would like to share with you my concern regarding the confidentiality of transfer student performance data. Each semester, Wayne State University produces individual performance and retention reports for the 10 SEMLCC institutions. The information in these reports which reflects the performance of students from any given institution is made available to that institution, but to no other college or university. Our policy of confidentiality with respect to transfer student performance data was developed in consultation with representatives of several SEMLCC institutions who joined with us during 1982-83 to discuss the production of performance reports.

I would also like to take this opportunity to let you know that our Board of Governors recently adopted a "2+2" policy which will permit the faculties of the University to create new, upper-division programs designed especially for holders of two-year technical degrees. Such "Capstone Programs" could establish an expanded array of technically-oriented upper division degree programs similar in structure to our existing program in engineering technology, as well

as establishing general studies programs that would broaden a student's background in general education. Capstone Programs will provide for the transfer of most technical and vocational course credit earned by community college students in pursuing an Associate of Applied Science (or equivalent) degree. I plan to distribute copies of this new policy to you under separate cover in the near future.

In the meantime, if you have any questions regarding the materials that are enclosed, or would like to discuss any aspect of transfer policy or practice, please do not hesitate to call me. I am looking forward to the initiation of some exciting new educational linkages between our two institutions.

Thank you for your attention.

Sincerely,

David Adamany
President

The College and the Transfer Student

Lake Superior State College is a small college, dedicated to the education of the undergraduate. The college has set for itself an enrollment limit of 2500 students, a limit designed to preserve the attractions and advantages of a small campus. LSSC's insistence upon academic excellence, the opportunities it offers for individual attention, and the appeal of life in the beautiful and uncrowded North country, attract students from every area of Michigan.

Nearly one-fourth of the college's enrollment are transfer students. Many have come to LSSC with associate degrees, while others have transferred to the college with one year or less work at another school. All receive a special orientation to the college, as well as opportunities for individual academic advising. Transfer students who are just beginning at LSSC are given the opportunity to schedule their courses in advance, assuring them of the classes they require.

In addition to its baccalaureate programs, the college itself offers a wide variety of associate degrees. Under its unique "two plus two concept," almost all of the associate degree programs on campus lead directly into a related baccalaureate program. Thus, students with an associate degree, in most instances, are able to complete a Bachelor's degree in a related field in two additional years of study. The college views the associate degree as the base upon which further education may be built, and extends this concept to transfer students with associate degrees from other schools.

Every effort is made at Lake Superior State College to keep student costs as low as possible. Tuition is currently among the lowest of Michigan's four-year state-supported colleges and universities. A wide variety of housing accommodations, including townhouse apartments and a college-owned mobile home park, are available at reasonable rates. Since costs change from year to year, a prospective student should contact the Housing Office for the current fee schedule.

Financial Aid

A full program of financial aid is available to eligible transfer students, including a special program of community college scholarships. The value of these scholarships varies from $210 to full tuition, and are available for study in any curriculum. Applicants must have completed an associate degree at a Michigan community college, must be Michigan residents, and have a cumulative grade point average of 3.0 or higher. Community college scholarships are renewable for the senior year.

Students planning to transfer to Lake Superior State College should file a Financial Aid Form (FAF) or Family Financial Statement by March 1st, and should be sure that their application for financial aid is filed with the college by April 1st. Please note that starting in 1977-78, the FAF or FFS will also serve as the application for the Basic Educational Opportunity Grant (BEOG). A student filing for financial aid as an independent student (not supported by parents) should include a copy of their parent's last federal income tax return with their application for financial aid. To be an independent student for financial aid purposes, a student may not be claimed as a dependent by their parents.

Transfer students are also eligible for the Philip Hart Memorial Scholarship, a program established by the late Senator for students at Lake Superior State College. The Philip Hart scholarships range in value from full tuition up to the amount of the student's full need. This scholarship is also renewable.

The Financial Aids Office, (906) 632-6841 extension 231, will be happy to answer any questions about Lake Superior State College's financial aid programs. A brochure on the college's transfer student financial aid program is available from your college counselor, and the college catalog contains a complete description of all of the institution's scholarship and financial aid programs.

Applications for Admission

Transfer students should possess a 2.0 cumulative grade point average, have a satisfactory recommendation, and, unless they have graduated, be eligible to return to their former college. Applicants for admission who have less than one full year of transferable credit (30 semester hours or 45 quarter hours) are required to submit their high school record in addition to their college record. Official transcripts from each college attended must be submitted with the application. Transcripts should be mailed to Lake Superior State College directly from the issuing institution at least 30 days prior to the beginning of the intended term of entrance. All transcripts become the property of Lake Superior State College and are not returnable.

Applications for Admission may be obtained from your college counselor or by writing to the Admissions Office at Lake Superior State College. Once you are officially accepted for admission, the LSSC Admissions Office will complete an official evaluation of your transfer credits. Transfer credit is granted for college-level courses completed with a "C" or better grade. Equivalent credit will be granted for courses that essentially match LSSC courses in content, credit value, and prerequisites. Courses for which we have no equivalents will transfer as "free electives" or departmental electives. Credit by examination is available for subjects not covered by the applicant's previous formal academic experience.

Lake Superior State College considers graduates of Michigan community colleges which have signed the MACRAO agreement, and who possess an associate of arts or an associate of science degree, and who have completed nine hours of English composition, twelve hours in the social sciences, twelve hours in the natural sciences, and twelve hours of humanities to have completed the general education requirements at Lake Superior State College.

For information about any aspect of the admission process, call or write the Admissions Office, Lake Superior State College, (906) 632-6841 extension 231. You are most welcome to visit campus. Our admissions staff will be happy to assist with the arrangements for your visit. Campus tours are available on weekdays from 8:00 a.m. to 5:00 p.m. and on Saturdays (except those Saturdays immediately preceding or following a national holiday) from 9:00 a.m. to 3:00 p.m.

TRANSFERRING?

SAULT STE. MARIE, MICHIGAN

GEOLOGY
TRANSFER GUIDE

Highland Park Community College to Lake Superior State College

The Academic Program

The B. S. in Geology is a program designed to provide knowledge and skills for a broad range of careers in the earth sciences. Major coursework emphasizes applied and theoretical aspects of the science in conjunction with a strong field orientation. Courses include physical, historical, structural, economic, and field geology; paleontology; mineralogy; igneous, metamorphic, and sedimentary petrography; sedimentology and stratigraphy; geophysics.

Requirements for Transfer

To make possible the completion of the bachelor of science program at Lake Superior State College within two years of transfer a student should do the following:

(a) Complete one of the Associate in Arts/Science Degree programs which satisfies the MACRAO agreement.

*(b) Complete a full-year sequence in physical geology.

(c) Complete the full-year Chemistry sequence required in the engineering transfer program.

(d) Complete a full-year sequence in physics (which need not be calculus-based).

(e) Complete all college level mathematics which is prerequisite to the first calculus course required in the engineering transfer program.

*Students unable to complete a physical geology sequence (at Highland Park Community College or , perhaps, at a nearby college) will probably need three years after transfer to complete the Lake Superior State College degree.

Additional Information

A customized term by term schedule will be provided for any student interested in transferring to Lake Superior State College who provides a record of courses completed (or to be completed) and a brief description of plans for using the degree in geology. To take advantage of this personalized transfer advisement write to:

Gary L. Thesing, Head
Dept. of Computer, Geologic
and Mathematical Sciences
Lake Superior State College
Sault Ste. Marie, MI 49783
